1. Discrimination on the basis of sexual orientation is legal in Missouri. Do you support or oppose adding "sexual orientation" to Missouri's Human Rights Statute? This would prohibit discrimination based on sexual orientation in housing, employment and access to public accommodations.

support  undecided  oppose   
Comments While I think discrimination is stupid business, I also think that owners of private property have the right to make stupid decisions.

2. Some states have extended all or nearly all of the benefits of marriage to same-sex couples under state law (ex. hospital visitation, mutual responsibility for debt, inheritance rights, health insurance, and joint taxes). Do you support or oppose similar laws in Missouri?

support  undecided  oppose   
Comments As long as new government entitlements are not created.

3. Gay, lesbian, bisexual and transgender parents are often denied custody of their children following the separation of the parents. PROMO believes that the sexual orientation and/or gender identity of parents should not be a determining factor in deciding custody of children. Do you support or oppose the rights of lesbian, gay, bisexual and transgender parents to have legal custody of their children?

4. Gay, lesbian, bisexual and transgender citizens are regularly denied the opportunity to adopt children or to provide foster care for children in need. PROMO believes that lesbian, gay, bisexual and transgender people should be assessed the same as any other applicant and that excluding people based on their sexual orientation and/or gender identity from becoming foster or adoptive parents works against

children's best interests. Do you support or oppose lesbian, gay, bisexual and transgender people as adoptive or foster parents?

support  undecided  oppose

Comments I do not know enough of the psychology/sociology involved to address this issue.

5. PROMO believes that all Missourians should have access to a full range of family planning services and reproductive options. Do you support or oppose access to family planning services and programs?

support  undecided  oppose

Comments As a Libertarian, I oppose use of ~~state~~ <sup>TAX</sup> funds for such programs. I support volunteer-run programs.

6. Discrimination, harassment, intimidation and bullying, like other disruptive or violent behaviors, is conduct that disrupts both a student's ability to learn and the school's ability to educate its students. PROMO believes it is essential to enact a law that seeks to protect the health and welfare of all Missouri students and improve the learning environment in Missouri schools. Do you support or oppose such a law in Missouri?

support  undecided  oppose

Comments Bullying is a problem. Schools should have the tools + the will to ~~opt~~ deal with all types of disruptive behavior.

7. Many public school boards are voting to include sexual orientation and gender identity in their non-discrimination policies. Do you support or oppose state interference with these local school board decisions?

support  undecided  oppose

8. Some elected officials are trying to change Missouri law and force public schools to teach abstinence only sex education. PROMO believes that the current law, requiring public schools to teach comprehensive sexuality education courses, should not be undermined. Do you support or oppose teaching comprehensive sexuality education in public schools?

support  undecided  oppose

Comments I prefer that the schools concentrate on education. If they're teaching sex-ed, it might as well be thorough

9. PROMO believes that sexual orientation and gender identity should be included on the list of protected classes in hate crime laws. Do you support the inclusion of sexual orientation and gender identity as protected classes in Missouri's hate crimes law?

support  undecided  oppose

Comments I do not think that the motive for a crime should justify additional punishment. People should be punished for what they do, not what they think.
